

Safe Haul Solutions

DOT Safety & Compliance Simplified for Transportation

Your Ultimate Solution for Compliant Needs

DRIVER HIRE APPLICATION TRACKING & PROCESS

Our software provides a streamlined, secure solution for managing the driver hiring process, enhancing operational efficiency and regulatory compliance in the trucking industry.

KEY FEATURES

1. Seamless Application Access

- ◆ **Direct Link Delivery:** Send application links directly to prospective drivers via SMS or email.
- ◆ **No App Installation Required:** Drivers can complete the application from any device using a web browser, ensuring easy access and eliminating technical barriers.

2. Secure Phone Number Verification

- ◆ **Authentication:** Drivers verify their phone numbers before accessing the application, ensuring data authenticity and preventing fraudulent submissions.

3. User-Friendly Online Forms

- ◆ **Easy Form Completion:** Digital forms are designed for intuitive navigation and quick completion.
- ◆ **Document Upload Capability:** Drivers can upload required documents directly via the browser interface, supporting multiple file formats.

4. Efficient Safety Team Processing

- ◆ **Real-Time Notifications:** The Safety Team receives instant alerts when a new application is submitted.
- ◆ **Centralized Dashboard:** Facilitates easy tracking and management of all applications in a single, comprehensive interface.

5. Application Status Management

- ◆ **Status Updates:** The Safety Team can update the application status to "Hire" or "Not Hire" after evaluation.
- ◆ **Automated Communication:** The system automatically sends an email notification to the driver upon status change, ensuring clear communication.

BENEFITS

◆ Enhanced Efficiency

Reduces manual data entry and paperwork, accelerating the hiring process.

◆ Greater Accessibility

Allows drivers to apply from any where, at any time, without the need for additional software.

◆ Improved Compliance

Ensures secure collection and storage of necessary documents, aiding regulatory compliance.

◆ Transparent Communication

Keeps applicants informed, fostering trust and a positive experience.

AUTOMATIC PREVIOUS EMPLOYMENT CHECK

Our software automates the driver background verification process, reducing manual work and enhancing compliance.

KEY FEATURES

1. Previous Employer Background Check

- ◆ **Automatic Analysis:** Analyzes and verifies previous employer details, checking for links to DOT records.
- ◆ **Data Cross-Matching:** Cross-references driver-provided information with public data to find accurate contact details.

2. Automated Email Communication

- ◆ **Initial Contact:** Sends automated verification emails to previous employers if data matches.
- ◆ **Unique Email Identifier:** Assigns unique identifiers to each email to match responses with the correct driver.

3. Follow-Up Process

- ◆ **Scheduled Follow-Ups:** Automatically sends follow-up emails weekly for up to three attempts if no response is received.
- ◆ **Persistent Tracking:** Maintains detailed records of all communication attempts.

4. Comprehensive Documentation

- ◆ **PDF Report Generation:** Documents the entire process, including email timestamps.
- ◆ **Reply Integration:** Adds received replies to the report for a complete verification record.

5. Conditional Processing

- ◆ **Email Requirement:** The process only starts if the driver has provided a previous employer's email in the application.

BENEFITS

◆ Streamlined Verification

Automates employer outreach and follow-up processes.

◆ Accurate Contact Matching

Enhances reliability by verifying driver information.

◆ Audit-Ready Documentation

Provides detailed PDF records for compliance purposes.

◆ Timely Follow-Ups

Ensures consistent communication for faster background verification.

CHECKLIST & STORAGE

Our software offers robust tools for managing Driver Qualification (DQ) files, empowering the Safety Team to manage driver documents efficiently.

KEY FEATURES

1. Checklist Overview

- ◆ **Form Status Tracking:** Allows users to view the completion status of forms.
- ◆ **Direct Access & Management:** Facilitates easy access to any form for review and management..

2. Document Upload & Management

- ◆ **Form-Linked Document Uploads:** Ensures consistent and organized document management.
- ◆ **Prebuilt Document Integration:** Supports uploading pre-existing driver files for those employed prior to plat form use.
- ◆ **Integrated File Storage:** Automatically saves documents in the driver's dedicated storage folder.

3. Progress Tracking

- ◆ **DualProgress Bars:** Displays task completion status for both drivers and the Safety Team.
- ◆ **Visual Indicators:** Keeps all parties informed of progress.

4. File Storage Manager

- ◆ **Automated Integration:** Saves uploaded documents directly in the relevant storage folder.
- ◆ **Custom Folder Management:** Enables creating and managing custom folders.
- ◆ **Cloud Storage:** Ensures secure, accessible storage for documents.

5. One-Click Download Feature

- ◆ **Zip File Creation:** Facilitates downloading all driver-related documents as a zip file.
- ◆ **Enhanced Accessibility:** Simplifies document retrieval and sharing.

BENEFITS

◆ Improved Organization

Centralizes document management for efficient operations..

◆ Streamlined Processes

Enhances tracking and document handling.

◆ Compliance Support

Ensures all documents are audit-ready.

◆ Customization Options

Flexibility to organize storage as needed.

◆ Proactive Alerts

Minimizes risk with expiry notifications.

INBUILT DRIVER BACKGROUND CHECK FEATURES

Our software provides built-in capabilities for seamless management of driver background checks.

KEY FEATURES

1. Integrated Background Checks

- ◆ **MVR, PSP, and Background Checks:** Run detailed background checks directly within the platform.
- ◆ **Driver Consent Management:** Initiate checks with driver consent for full compliance.

2. All-in-One Platform

- ◆ **Centralized Functionality:** Manage all checks in one place.
- ◆ **Streamlined Workflow:** Reduces time and potential errors with a single interface.

3. Automatic Report Storage

- ◆ **Predefined Folder Saving:** Automatically saves reports in the driver's folder.
- ◆ **Secure Documentation:** Keeps reports organized and protected.

4. Access to Historical Data

- ◆ **Previous Reports:** Review past reports for comprehensive oversight.
- ◆ **Data Insights:** Aids in long-term driver management.

BENEFITS

◆ Convenient Access

Consolidates checks in one platform.

◆ Efficient Management

Streamlines processing and storage.

◆ Enhanced Compliance

Facilitates adherence to standards.

◆ Secure & Organized

Keeps documentation safe and accessible.

DRUG TEST MANAGEMENT

Manage all aspects of driver drug testing seamlessly within the platform.

KEY FEATURES

1. Drug Test Report Uploads

- ◆ **Checklist Integration:** Upload and manage reports within the platform.
- ◆ **Centralized Management:** Streamlines DQ file maintenance.

2. Comprehensive Drug Test Management

- ◆ **End-to-End Support:** Manage pre-employment, random, and other types of drug tests.
- ◆ **Documentation and Reporting:** Organize all reports in one location.

3. Booking and Scheduling Drug Tests

- ◆ **Nationwide Lab Access:** Book tests at U.S. labs with competitive pricing.
- ◆ **Simplified Scheduling:** Manage records efficiently.

4. Third-Party Administration Services

- ◆ **Consortium Management:** Safe Haul Solutions acts as your TPA, managing quarterly random selection pools.
- ◆ **Cost-Effective Annual Service:** Provides professional administration at a competitive annual cost.

BENEFITS

◆ Enhanced Compliance

Supports documentation and regulatory adherence.

◆ Streamlined Management

Reduces administrative burdens.

◆ Cost Savings

Competitively priced test services.

◆ Comprehensive Coverage

Facilitates national operations.

◆ Efficient Consortium Services

Maintains compliance with ease.

TRAINING

Equip your team to handle drug testing procedures effectively with Reasonable Suspicion Training.

KEY FEATURES

1. Comprehensive Training Modules

- ◆ **Detailed Curriculum:** Covers signs of substance abuse, responsibilities, and proper documentation.
- ◆ **User-Friendly Access:** Available through existing accounts for flexible learning.

2. Certification Upon Completion

- ◆ **Official Certification:** Automatically generated upon training completion.
- ◆ **Record Keeping:** Certificates stored in your company's File Storage for easy access.

ADVANTAGES

- ◆ **Skill Development:** Enhances handling of sensitive situations.
- ◆ **Risk Reduction:** Minimizes potential incidents.
- ◆ **Legal Safeguards:** Supports appropriate handling of issues.
- ◆ **Employee Well-Being:** Fosters a culture of safety

IMPORTANCE

◆ Regulatory Compliance

Required for DOT safety-sensitive supervisors

◆ Audit Preparedness

Certificates serve as proof for auditors.

◆ Enhanced Safety Measures

Promotes a safer work environment

INSPECTION AND VIOLATION ALERTS

Proactively monitor inspections and violations to stay informed and compliant.

KEY FEATURES

1. Real-Time Detection

- ◆ **Automatic Monitoring:** Detects reports uploaded to CSA.
- ◆ **FMCSA Integration:** Provides reliable, current data.

2. Immediate Email Alerts

- ◆ **Timely Notifications:** Sends alerts for tickets and violations.
- ◆ **Detailed Information:** Ensures prompt response and action.

3. Safety Score Tracking

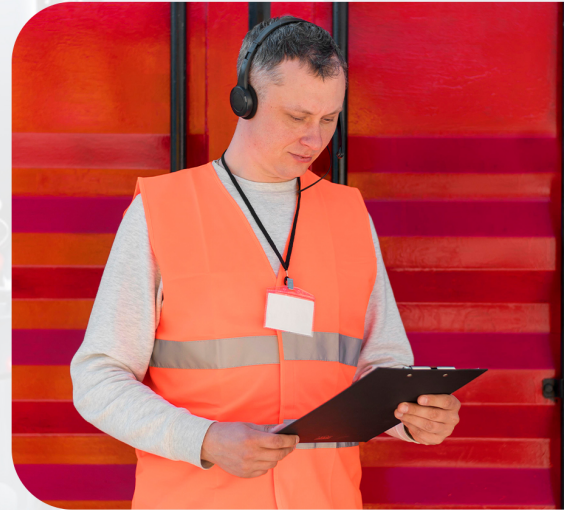

- ◆ **Updates & Insights:** Monitors safety scores and identifies improvement areas.

4. AI-Powered Solutions

- ◆ **Expert Suggestions:** Provides tailored recommendations for resolving issues.
- ◆ **Preventative Guidance:** Offers best practices for preventing future incidents.

5. Driver Accountability

- ◆ **Transparency:** Alerts include unreported violations.
- ◆ **Proactive Handling:** Helps address issues before escalation.

BENEFITS

◆ Enhanced Compliance

Supports timely issue resolution.

◆ Improved Safety

Offers expert guidance to enhance safety scores.

◆ Operational Efficiency

Reduces risk of fines.

◆ Strategic Improvement

Leverages AI insights for better compliance.

TRUCK & EQUIPMENT PROFILING

Manage your fleet with a central platform for trucks and equipment documentation.

KEY FEATURES

1. Vehicle and Equipment Management

- ◆ **Profile Creation:** Add detailed vehicle and equipment profiles.
- ◆ **File Storage:** Store all related documents securely.

2. Document Accessibility

- ◆ **Mobile Access:** Retrieve documents via the Safe Haul Solutions App.
- ◆ **Centralized Records:** Keep receipts and maintenance documents in one place.

3. Maintenance & Service Alerts

- ◆ **Automated Reminders:** Get alerts for scheduled services.
- ◆ **Preventative Maintenance:** Avoid unexpected issues with timely service.

4. Dedicated Asset Storage

- ◆ **Organized Documentation:** Each asset has its own storage.
- ◆ **Customization:** Create custom folders as needed.

BENEFITS

◆ Enhanced Organization

Centralizes asset management.

◆ Improved Compliance

Keeps documents audit-ready.

◆ Operational Efficiency

Automated reminders reduce downtime.

◆ Accessibility

Easy access to documents anytime.

CONNECTIVITY WITH ELDs

Seamless integration with Electronic Logging Devices (ELDs) for accurate fleet information.

KEY FEATURES

1. Integration with Leading ELDs

- ◆ **Wide Compatibility:** Connect with providers like Motive and Samsara.
- ◆ **Continuous Updates:** Ongoing expansion of supported devices.

2. Vital Data Access

- ◆ **Fuel Data:** Monitor real-time fuel usage.
- ◆ **HOS Alerts:** Ensure compliance with hours of service regulations.
- ◆ **Maintenance Scheduling:** Use vehicle data for optimized scheduling.

3. Advanced Reporting & AI

- ◆ **Weekly Reports:** Analyze ELD and FMCSA data.
- ◆ **AI Suggestions:** Get actionable insights for improving safety scores.

BENEFITS

◆ Operational Efficiency

Use real-time data for better decision-making.

◆ Regulatory Compliance

Monitor HOS and avoid penalties.

◆ Safety Enhancement

Improve driver behavior with AI analysis.

◆ Cost Savings

Optimize maintenance and fuel usage.

◆ Scalable Integration

Easily add new devices.

DEDICATED SAFETY MANAGEMENT SERVICES

Safe Haul Solutions offers a powerful software platform and expert safety management services on a monthly plan, ensuring your operations remain organized, compliant, and efficient.

KEY FEATURES

1. Dedicated Safety Team

- ◆ **Comprehensive Support:** Safe Haul Solutions provides a dedicated safety expert to manage your data, maintain files, and ensure compliance with safety protocols.
- ◆ **On-Call Assistance:** Our dedicated team provides personalized guidance and prompt support for all your safety needs.

2. Data Management & Compliance Oversight

- ◆ **Platform Management:** The assigned safety professional will manage data entry, document uploads, and the Safe Haul Solutions platform.
- ◆ **Clearinghouse Management:** Expert assistance in managing your Clearinghouse responsibilities, including monitoring compliance and maintaining records.

3. Drug Test Management

- ◆ **Booking&Coordination:** The dedicated team can schedule drug tests for drivers, including pre-employment and random drug tests, across the U.S.
- ◆ **Document Uploads:** Ensures that all drug test reports are accurately uploaded and stored within the driver's profile for audit readiness.

4. File Maintenance & Organization

- ◆ **Proactive File Management:** The team helps maintain and organize your DQ files, ensuring all necessary documentation is complete and up-to-date.
- ◆ **Automated Alerts & Updates:** Supports you with scheduling, managing documentation, and maintaining compliance reports.

BENEFITS

◆ Expert Oversight

Get reliable support from a dedicated safety expert managing all your safety needs.

◆ Operational Efficiency

Focus on your core business while Safe Haul Solutions handles complex aspects of safety compliance.

◆ Enhanced Compliance

Ensures that your company meets all regulatory standards with accurate data management and thorough record-keeping.

◆ Peace of Mind

With a dedicated safety person assigned to your company, you can be confident that your compliance requirements are handled efficiently.

◆ Streamlined Processes

The dedicated team manages drug tests, maintains files, and optimises your safety score with minimal effort.
